Subject: Follow-up letter to a letter dated
July 20th, 2006 regarding the
First State Bank Rezoning Application

Dear Mr. Joulani,

The purpose of this letter is to clarify some confusion surrounding the First State Bank application for a re-zoning of property having an RE # of 00163011-000100 and 00163011-000200 (both currently owned by Mr. Kieran Mahoney), located on Sugarloaf Key, Monroe County Florida.

It is our understanding that this item is on the Planning Commission agenda for September 13th, 2006, and it is noted in the agenda package that the applicant will request a continuance. This is incorrect. We will attend this meeting and ask for the item to be tabled until further instruction by our client, First State Bank of the Florida Keys.

As the client's representative, we were scheduled for and attended the Monroe County Development Review Committee (DRC) on June 13, 2006. At that meeting, we requested a continuance until the following DRC meeting on July 11th. We requested this continuance to afford us the time to hold an informational community meeting with the residents of Sugarloaf Shores.

Unfortunately, we found it necessary to postpone the community meeting from July 5 to July 20th. Therefore, at the second DRC meeting held on July 11th, we once again requested a continuance until the next DRC meeting since we did not hold our community meeting as scheduled.

Then, under instruction by our client, we postponed the community meeting that was to be held on July 20th to an unspecified date. That prompted us to request, via a Federal Express letter addressed to you on July 20th to table the application in its entirety through the month of September. This request remains unchanged.

[REDACTED] Our client wishes to move forward with this application, we will hold, as planned, a community meeting and then begin the hearing process with the DRC. We do not want this application to be heard by the planning commission until we have worked out concerns at the DRC level. We will notify the County in September of our plan of action.

We thank you for your understanding and we apologize for any inconvenience this may cause. Please contact me for any further clarification.

Very truly yours,

Rooney Corriveau, Planner

Subject: First State Bank Rezoning Application

Dear Mr. Joulani,

Please be advised that our client, First State Bank of the Florida Keys has instructed us to postpone the scheduled community meeting to be held at the Sugarloaf Key volunteer fire station on Monday, July 24th at 5:30 pm. Therefore, we are requesting that the application for a zoning and FLUM change be tabled through September. During that month, we will notify the County of our client's plan of action.

We thank you for your understanding and we apologize for any inconvenience this may cause.

Very truly yours,

Rodney Corriveau, Planner

June 28, 2006

**Growth Management Division
Attn Nicole Petrick
2798 Overseas Highway Ste410
Marathon, FL 33050**

We live within ½ mile of the proposed re-zoning of the two lots legally described as Tract A & B Lots 1&2 Sugarloaf Shores PB7-33 Sugarloaf Key, FL 33042. Real estate numbers 00163011000100 & 00163011000200 at approximate mile marker 17. There is apparently a request to change this from improved subdivision to mixed use, and the future land use from residential medium to mixed use commercial by the Craig Company on behalf of Kieran & Gerri Mahoney.

We oppose the changes because

- 1. This is a residential neighborhood on the south side of US one, and we enjoy using it as such.**
- 2. We do not want the increased traffic of commercial use at the entrance to our neighborhood.**

Please forward this to the Board of County Commissioners at the hearing scheduled for this change.

Sincerely,

Richard & Cheryl Gegorek

July 5, 2006

This petition only covers 6 streets on Lower Sugarloaf Key. Most of the residents in this area are seasonal and therefore we could not obtain their signatures nor do they even know what is being proposed in their neighborhood. It is completely unfair to these home owners who are only here for the winter. We will continue with our petition in the months to come and add to our long list of concerned residents.

Thank you for your time and consideration in this very serious matter.

Joelle Keane

June 22, 2005

To whom it may concern,

I am writing in reference to the Notice To Surrounding Property Owners from the Craig Company on behalf of Kieran and Gerri Mahoney about the property on Lower Sugarloaf Key. I am extremely OPPOSED to changing these lots from Improved Subdivision to Mixed Use/Commercial Use. When my husband and I bought our home in 2003, we took a lot of time to research the neighborhood. We bought our property KNOWING the surrounding lots were designated as Improved Subdivision and NOTHING ELSE! We have two young children and love the area because they can play in our driveway and on our cul-de-sac knowing they are safe from strangers and traffic. If these lot numbers 00163011.000100 and 00163011.000200 are changed from a subdivision to mixed and/or commercial use, our homes, our children and the children in our community will not be safe. There is plenty of commercial property across US 1 causing enough traffic!!!

I will not be able to attend the public hearing on July 12th and my husband, who is active duty military, will be out of the country on that date and also will not be able to attend. Please help us to fight for our neighborhood and keep it a NEIGHBORHOOD!

Thank you for your time and attention in this very serious matter. If there is anything else I can do to stop this issue, please contact me at 745-8678 at ANYTIME!!!!

Sincerely,

Joelle Keane

Monroe County Growth Management
Att: Nicole Petrick - Suite 410
2798 Overseas Highway
Marathon FL 33050

Dear Growth Management:

I live at 16860 Driftwood Lane, Sugarloaf Key FL 33042 within a few hundred feet of the proposed re-zoning of the two lot legally described as Tract A and B Lots 1 & 2 Sugarloaf Shores PB7-33 Sugarloaf Key, Monroe County, FL having Real Estate Numbers 00163011000100 and 00163011000200 approximate Mile Marker 17 currently owned by Kieran & Gerri Mahoney. I **oppose** this change in zoning from Residential medium to Mixed use Commercial.

This change would put extra traffic at this dangerous 4 way intersection of Sugarloaf Blvd and route 1. Extra traffic would also make it harder for residents of our street to exit onto Sugarloaf Blvd.

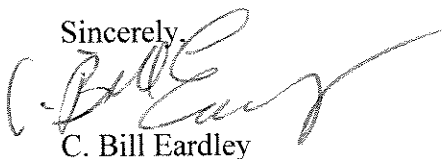

It would also change the character of our neighborhood. Sugarloaf Shores is zoned as an improved subdivision for single family dwellings with established setbacks and heights restrictions. These regulations form the basis upon which community character has been established. Sugarloaf shores should be maintained as is.

Please do NOT allow this change. There is enough commercial already. Recently Lloyd Good received approval for development of several lots for mixed commercial use. Anyone needing commercial mixed use zoning near Sugarloaf Shores, could secure property from Mr. Good. We do not need more commercial land.

Please share this letter at the Public Hearing to be held at the July 12, 2006. If this meeting or other hearing meeting is postponed or rescheduled concerning this property, please share this letter with them. I will be unable to attend a July meeting due to a family matter.

As an active voter in Monroe Co FL I **oppose** any zoning change for Sugarloaf Shores.

Sincerely,

C. Bill Eardley
16860 Driftwood Lane
Sugarloaf Key FL 33042

June 24, 2006

Nicole Petrick
Monroe County Growth Management
2798 Overseas Highway, Suite 410
Marathon, FL 33950

Dear Ms. Petrick;

As I will be out of state on the July 12 hearing date, I am writing in opposition to the Craig Company (Mahoney, et al) proposal to change the designation of Lots 1 & 2 on Sugarloaf Boulevard.

Lots 1 & 2, Tract A & B have always been Residential lots, room for only two homes. There are no commercial use lots on Sugarloaf Boulevard and there should not be any.

I live on Driftwood Lane, the 1st street south of Highway 1. If this commercial development were allowed, the traffic at the end of our street would increase many fold. These lots cannot exit directly onto Highway 1 because the canal borders it.

The corner of our street, Driftwood Lane and Sugarloaf Boulevard is a school bus stop. When school is in session, there is a multi-car back up each morning to get out onto Highway 1.

Lloyd Good is the Mahoneys' present landlord. He owns the lots at the intersection of South Pointe Drive and Highway 1. These lots have already been approved as Mixed Use/Commercial along with work force housing. Let the Mahoneys build their office there. That land usage does not have to be changed and would allow all the commercial development to be in one area.

Please go see these two lots before any decision is made. You will see this change from Residential to Commercial is undesirable for everyone.

I do not want it!

Respectfully submitted,

Sandra Eardley PhD
16860 Driftwood Lane
Sugarloaf Key

Dave Kolhagen
Subject: FLUM and rezoning application

Mr. Joulani

Enclosed is a map amendment application for the FLUM and Zoning Map for Monroe County, accompanied by a check in the sum of \$5,266.00 for all applicable fees. We are proposing to change one acre (mol) of the improved subdivision zoning to one acre of the mixed-use category in the Sugarloaf Shores subdivision, Section A, Tracts A and B, on Sugarloaf Key.

On the site, we are proposing a new building that would have a footprint of approximately 2,500sf; 1,250sf for First State Bank and 1,250sf for a real estate office. The second floor would consist of two affordable housing units. The additional affordable housing units would serve to help alleviate the ongoing problems of affordable housing in Monroe County. Major factors influencing the initiation of this application are flooding at the current bank location and the demolition of the building in 18 months.

Additionally you will find an appendix with the following attachments:

- A- First State Bank Customer Comment Letters
- B- Vegetation Survey

- C- Photographs
- D1- Property Survey
- D2- Original Plat for Sugarloaf Shores Subdivision
- E- Zoning Map
- F- Proof of Property Ownership
- G- Property Record Card
- H- Authorization Letters

Proposed Land Use District Designation Mixed Use

F) Size of Parcel One acre, mol (44,142 sf)

G) Existing Use: If the property is developed, describe, in general terms, the existing use of the property such as the type of use, number of residential units, or the gross floor area of the commercial development. (If the property contains structures, submit a site plan in addition to your verbal description).

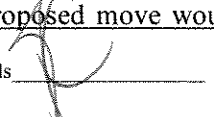

Platted, vacant land

H) It is the applicant's burden to justify overturning existing land use designations previously set by the Board of County Commissioners. Below are the factors that the Board may consider in order to approve a proposed change, as prescribed by Section 9.5-511 (d)(5)(b) of the Monroe County Code. However, the Code prohibits any change, which would negatively, impact community character. If you need assistance in preparing a response, please call to schedule a pre-application conference with the planning department. You must submit all supporting information, documentation or exhibits for future public hearings at the time you submit this application so that the Planning Department may use it in preparing its recommendation. Information provided at a later date may not be considered by the Planning Department, Planning Commission or Board of County Commissioners.

1. Changed projections (e.g., regarding public service needs) from those on which the text or boundary was based.

Currently, the parcel is designated as Residential Medium under the FLUM. Under Policy 101.4.3 of the Monroe County Comprehensive Plan, "...the Residential Medium land use category is to recognize those portions of subdivisions that were lawfully established and improved prior to the adoption of this plan and to define improved subdivisions as those lots served by a dedicated and accepted existing roadway, have an approved potable water supply, and have sufficient uplands to accommodate the residential uses. Under this classification, the area has seen considerable residential development. The proposed FLUM, Mixed Use Commercial (MC) will permit the site to be developed with a low to medium density commercial use and will incorporate an affordable/employee housing component. The residential nature of the site will be retained while providing the opportunity for a commercial component that will integral in the economic feasibility of the project.

According to FEMA (Federal Emergency Management Agency) Maps (panel 1290 of 1585, revised Feb 18, 2005), the entire area on both sides of US 1 is in the AE Zone (coastal flood zone). However, the proposed location is further away from the VE Zone, (coastal flood zone with velocity hazard) than the current location, thus lessening the threat of flood damage to the building. The proposed move would

allow First State Bank (FSB) to construct a new building that would be built to modern building standards, avoiding many of the issues at the current location.

According to Mr. Kolhagen of FSB, the Sugarloaf location was flooded last year due to Hurricane Wilma, with water depths reaching 1.5 to 2 feet inside the building. The bank was inundated with letters of praise from customers after the bank re-opened from a six-week closure due to the hurricane; please see "Attachment A" for letters from local residents. The move could help alleviate problems associated with flooding of the bank, its subsequent closure, and potential adverse effects on the community, which relies upon the bank. The next closest banks are on Summerland Key to the north, and Key West to the south.

2. Changed assumptions (e.g., regarding demographic trends).

The requested change reflects the original intent of the site as it was originally platted for non-residential use (a hotel) in the 1950's; please refer to attachment D2, "Sugarloaf Shores Plat". The original hotel parcel was later subdivided into three parcels and a home was built on the southernmost lot. The subject tracts are two of the last undeveloped parcels in the subdivision, possibly due to its proximity to US 1 and its condition (please refer to Attachment B, Vegetative Survey and Attachment C, Photographs for existing conditions) A mixed use land use better reflects the current demographic trend, as it appears that the Sugarloaf Shores subdivision is approximately 90-95% built-out, as observed by the Planner.

According to Policy 101.4.5 of the Monroe County Comprehensive Plan, the principle purpose of the Mixed Use land use category is "...to provide for the establishment of commercial zoning districts where various types of commercial retail and office may be permitted at intensities which are consistent with the community character and the natural environment". The proposed change is of a comparable nature with existing residential development as it is a low intensity commercial use that is currently taking place on the opposite side of US 1.

We are proposing to change one acre (mol) of the improved subdivision zoning to one acre of the mixed-use category. On the site, we are proposing a new building that would have a footprint of approximately 2,500sf; 1,250sf for the bank and 1,250sf for a real estate office located adjacent to the current bank. The second floor would consist of two affordable housing units. The additional affordable housing units would serve to help alleviate the ongoing problems of affordable housing in Monroe County and specifically in this area, thus bringing the county closer to its goal of allocating at least 20% residential (non-transient) to affordable housing (Policy 101.2.4 of the Monroe County Year 2010 Comprehensive Plan. The proposed employee/affordable housing use is consistent with the recently approved and constructed affordable housing development known as Dolphin Cove located across the canal to the east of the site.

Since the bank and real estate office are currently located in the same vicinity of a residential subdivision and along US 1, we do not anticipate an increase in traffic volume since we are not actually adding to the net amount of commercial space along the corridor, only relocating it. This proposal will facilitate the ingress/egress for customers and their subsequent safety along US 1 by providing access along Sugarloaf Blvd, then onto US 1. Additionally, many of the customers of the bank actually live in the Sugarloaf Shores Subdivision, thus the move will encourage a more pedestrian friendly facility and would alleviate the issues of patrons crossing US 1 to access the bank.

According to a vegetative survey of Tracts A and B performed by Terramar Environmental Services, dated March 8th, 2006, "The habitats on the property include vegetated disturbed uplands, scarified disturbed uplands, and disturbed wetlands associated with man-made canals" As evident from the aerial photographs (see Attachment C), the disturbed condition of the property, along with its proximity to US 1, could be a decisive factor in the reason that these two tracts have been left undeveloped in the subdivision. The remaining vegetation that is listed as threatened, endangered, or regionally important will be part of a mitigation strategy that will include mapping, directing development away from, and relocating these species. Please refer to Attachment B, Vegetation Report for a complete report. The site is not considered environmentally important and has not yet been removed from the FEMA Flood Insurance list; however, the landowner is actively seeking to rectify this issue. Regardless of FEMA status of this property, First State Bank is self-insured and will not seek insurance coverage from FEMA.

3. Data errors, including errors in mapping, vegetative types and natural features described in any section of the comprehensive plan.

None known

4. New issues.

The owner of the current building has indicated to FSB that this building will be demolished in 18 months. In order to continue to provide this service to the Sugarloaf community, the bank needs to find a new location. The bank is seeking to establish a facility that will provide security for continued business operations as well as provide an employee housing component that is so significantly needed in this community.

5. Recognition of a need for additional detail or comprehensiveness; or,
None.

6. Data updates.
None.

- I) Include 2 different photographs of the subject parcel(s)-12 copies of each. Only original photos or color copies will be accepted. Aerial photos may not be used to meet this requirement but may be used for support information.

"See Attachment C"

- J) Include a survey with a site plan if structures exist on the property.

"See Attachment D1, Survey and D2, Original Plat for Sugarloaf Shores Subdivision"

- K) Include a copy of the zoning map, clearly marking the boundaries of the property being considered. The Planning Department will be able to assist you in obtaining a copy of the zoning map.

"See Attachment E"

- L) Attach proof of ownership (i.e. copy of deed or tax bill).

"See Attachment F"

M) Include a copy of the property record card from the property appraiser's office.

“See Attachment G”

N) Attach a notarized letter from the owner authorizing the applicant or agent to seek the amendment(s) and to represent the owner. All correspondence from Monroe County on this issue will be addressed to agent and not property owner(s), unless otherwise specified.

“See Attachment H”

(O) TYPED NAME AND ADDRESS MAILING LABELS of property owners within a 200 feet radius of the subject property(s). This list should be compiled from the current tax rolls located in the Property Appraiser's Office. Also, please provide the listing of the names, subdivision name, lot and block # and the RE #'s for each address and note those that are adjoining the property. Adjoining lots are not disrupted by a canal or street. When a condominium is adjoining the property within the two-hundred (200) feet, each unit owner must be included.

“See Attachment I”

P) The application must be accompanied by the appropriate fee. The fee schedule is as follows:

***Please Note: Higher fees are applied for any changes into Non-Residential.
Subject to additional fees; \$245 for newspaper advertisement and \$3 per property owner notice
Subject to technology fee of \$20.00 for records conversion, storage, and retrieval**

Amendment to the Future Land Use Map and Land Use District Map

*(Non-Residential)	(Residential)
\$4,950.00	\$3,940.00

Amendment to the Future Land Use Map Only

*(Non-Residential)	(Residential)
\$4,020.00	\$3,010.00

Amendment to Land Use District Map Only

*(Non-Residential)	(Residential)
\$3,970.00	\$2,940.00

I certify I am familiar with the information contained in this application, and, to the best of my knowledge such information is true, complete, and accurate. I also certify I possess the authority to undertake the proposed amendment(s). I understand the submission of false information may lead to denial or revocation of the requested amendment(s).

Customer Letters

Sugarloaf Key, FL
33042

First State Bank
Of the Florida Keys

January 2, 2006,

To Whom It May Concern:

We just wanted to write a short letter to tell you how much we appreciate your Sugarloaf Branch office. We have lived in Sugarloaf Key for six years and originally chose to do our banking with First State Bank because of the proximity of the Sugarloaf Branch to our home.

But after six years, we continue to do our banking at this particular office, not only for the convenience, but because of the professional, friendly, and helpful members of the staff. It is so nice to have a bank that helps maintain a small town atmosphere, which is such a fundamental part of the Florida Keys lifestyle.

After hurricane Wilma, especially, we realized how thankful we are for the Sugarloaf Branch. Not only did we notice how inconvenient it was to have our bank closed for that short amount of time. But we realized how much we appreciated a smiling friendly face amidst all the stress of clean-up and rebuilding after the storm.

Thank you for providing us with such a great group of people to do our banking with, and we look forward to doing business with them for many years to come.

Sincerely, / 

November 30, 2005

To Whom This May Concern:

I would just like to take a moment to thank whoever is responsible for making the decision to reopen the Sugarloaf branch of First State. The closing of this convenient location during the cleanup from Wilma made banking difficult. I was so unhappy when I heard rumors that the branch was going to remain closed, I had made plans to close my accounts and transfer everything to TIB Bank since I have my mortgage w/ them. I'm so glad I didn't have to bother with those changes.

Thanks again!

December 8, 2005

First State Bank
1201 Simonton Street
Key West, Florida
33040

Attn: Karen Sharp

Dear Ms. Sharp,

This is to tell you of how grateful my wife and I are for the reopening of your branch office on Sugarloaf Key.

It was extremely inconvenient for us while the branch was closed in that the nearest ATM was about ten miles from our home and what had been a matter of minutes to go to the bank to conduct bank business became a much longer trip. Your personnel in the Sugarloaf branch was quite accommodating while the office was closed if my wife needed to access the materials in her safety deposit box, but it is a relief for my wife now to have instant access to her things.

I have had an account in that office for the last nine years and before that my mother and father held accounts there for almost thirty years. In short your bank is something of an institution for my family.

Today, this branch of your bank is, and has always been, a pleasure to walk into. The tellers and the managers are invariably friendly and welcoming. And helpful should the need for help ever arise.

Thank you,

Barbara and Chisholm Gentry

Karen Sharp
First State Bank
Sugarloaf Key, FL 33042

Dear Karen Sharp:

I would like you to know how happy I am (everyone is) to have the Sugarloaf Branch of First State Bank open and operating again.

This small branch is a very important part of our community. And it is something we all appreciate.

There's another thing you should know. The people in the bank are exceptional. They are bright, cheerful, helpful. They make it a pleasure to go in and conduct business. You are very lucky to have such a great crew.

And we're lucky to have them too.

Sincerely,

Sugarloaf Key, FL 33042

11 December 2005

To : First State Bank

From :

Re : Sugarloaf Key Branch

I wanted to take this opportunity to thank you for re-opening the Sugarloaf Key Branch of the First State Bank. We certainly missed the convenience of banking in our own neighborhood. It's a very nice feeling to deal with people you know and trust.

Again, many thanks!

Yours truly, 

December 9, 2005

Ms. Karen Sharp
President
First State Bank
Key West, Florida

Dear Ms. Sharp,

I am writing to tell you how wonderful it is to have the Sugarloaf branch of First State Bank open and operating once again, and to thank all of the people at First State Bank for working so diligently to get the branch up and running. This branch is an important part of our "Sugarloaf" community, and I and many others are delighted to have it and the wonderful people who work there back again.

With best regards for a wonderful holiday season,

Sincerely,

Enclosure

Sugarloaf, Fl.
Dec. 8, 2005

To: Jason O'Brien Mgr.
First State Bank
Sugarloaf Key, Fl.
33042

Dear Jason,

We are delighted that
the Sugarloaf Branch has
re-opened.

It is so convenient and
delightful to have this
branch at this location.

The staff are always so
helpful and supportive.

Hats off to a great team!
Regards.

Sugarloaf Shores FL 33042

First State Bank
Key West, FL 33040

To Whom it may Concern:

I have been a customer at First State Bank
Sugarloaf Shores branch for over nine years.
Of course I enjoy the convenience, but more
than that, the staff is exceptional - always
courteous, helpful and friendly. The Sugarloaf
Branch is a real asset to our community.
And I hope that it will remain open.

Sincerely,

January '06

To the great staff
at the Sugarloaf
First State Bank,

Welcome Back! We
sure did miss you
(you have no idea!!) &
everyone is so glad you
are finally back taking
your standard good
care of us again.

Thanks!!

Dec 19, 05

New First State Bank,

Thank you for your rush to re-open the
Sugarcreek branch of First State Bank. It's
like having family home for the holidays,
and everyone in the community is so glad
that you back home!

Sincerely

First State Bank
Sugarloaf Branch

We would like to tell you how wonderful it is to have our branch up and running again on Sugarloaf.

Everytime we walk in and see the smiling faces of Vanessa, Lori and Jason it's like being at home with close friends. The warmth is always there and we couldn't think of banking anywhere else.

Thanks for opening so quickly after Wilma.

Sincerely

P.S. We've banked here at Sugarloaf since the branch opened.

December 5, 2005

To Whom it may concern:

As a daily depositor at First State Bank I would like to thank you for opening your Sugarloaf Key Bank so quickly after hurricane Wilma.

Sugarloaf Bank is not only the most convenient location for depositors as myself, it is also manned with an incredibly competent and friendly staff.

Many thanks to Jason, Vanessa and Lori for all their hard work, diligence and professionalism. Please be assured of the need for the Sugarloaf Key branch.

Sincerely,

Dear Carol,

Thanks for opening again your Sugarloaf Branch. Your staff, Lise, Jason + Vanessa are terrific. Our small community needs them very much. I can speak for the Marine Stacey, Steve, Tim, etc. we were lost when Wilma took them away.

Thanks

Vegetation Survey

Vegetation Survey
Tracts A and B, Sugarloaf Shores
Lower Sugarloaf Key

March 8, 2006

INTRODUCTION

A vegetation survey was conducted on Tracts A and B, Sugarloaf Shores, on March 4-5, 2006. The purpose of the vegetation survey was to establish the habitat types on the parcels and identify the vegetation present so that a vegetation mitigation plan may be developed if and when the property is developed. Because a site plan for development has not yet been developed, a mitigation plan specific to the development proposal was not prepared as part of this vegetation survey.

DESCRIPTION OF PROPERTY

The property includes two parcels, Tract A and B, Sugarloaf Shores (Figure 1). The habitats on the property include vegetated disturbed uplands, scarified disturbed uplands, and disturbed wetlands associated with man-made canals. The vegetation survey was conducted on the vegetated disturbed upland portion of the property (Figure 1).

The vegetated disturbed upland portion of the property is located adjacent to Sugarloaf Boulevard and consists of a mixture of non-native vegetation and native vegetation. The property owner recently completed the removal of the invasive exotic Brazilian pepper that had infested the property, leaving a mixture on non-native landscape plants and native hardwood species in an open park-like setting.

Signs of prior development are present on the parcels including access roads, cleared and filled areas, an old power pole, a cistern, and the presence of several large cultivated exotic landscape plants including date palm, washingtonia palm, purple tabebuia, and snake plant.

METHODS

The vegetation survey was conducted in the upland portion of the property adjacent to Sugarloaf Boulevard (Figure 1). The mangroves and transitional wetlands adjacent to the canals were not included in the vegetation survey. All native plant species located in the disturbed upland portion of the property were identified to species. All threatened, endangered, commercially exploited, and regionally important native plant species, and all native trees with a diameter at breast height (DBH) of greater than four inches, were tagged with fluorescent green flagging tape.

RESULTS

A total of 19 species of native woody plants were identified within the limits of the vegetation survey, with five species listed as threatened, endangered, commercially exploited, or regionally important (Table 1).

Key thatch palm was by far the most common listed plant on the property, being abundant throughout the upland portion of the property. A single individual of joewood and myrtle-of-the-river were found; locustberry and wild dilly were uncommon, being limited to only a few individuals each.

In addition to listed plants, specimen trees with a DBH greater than four inches were abundant throughout the survey area. The most common specimen trees included buttonwood, Jamaica dogwood, seagrape, and blolly.

Table 1. Woody plant species native to the Florida Keys found on Tract A and B, Sugarloaf Shores. Listed status refers to a plants status as Endangered (E), Threatened (T), Commercially Exploited (CE), or Regionally Important (RI) as established by the Florida Department of Agriculture.

Common Name	Scientific Name	Listed Status	Notes
Blackbead	<i>Pithecellobium guadalupense</i>		common
Blolly	<i>Guapira discolor</i>		common
Buttonwood	<i>Conocarpus erectus</i>		common
Cabbage Palm	<i>Sabal palmetto</i>		several near Sugarloaf Blvd., poss. in ROW
Jamaica Caper	<i>Capparis cynophallophora</i>		uncommon
Jamaica Dogwood	<i>Piscidia piscipula</i>		common
Joewood	<i>Jacquinia keyensis</i>	T	one small specimen
Key Thatch Palm	<i>Thrinax morrisii</i>	E	common
Locustberry	<i>Brysonima lucida</i>	T	common, poss. in ROW
Myrtle-of-the River	<i>Calypttranthes zuzygium</i>	E	uncommon
Poisonwood	<i>Metopium toxiferum</i>		uncommon
Randia	<i>Randia aculeata</i>		uncommon
Rhacoma	<i>Crossopetalum rhocoma</i>		uncommon
Saffron Plum	<i>Bumelia celastrina</i>		several small specimens
Seagrape	<i>Coccoloba uvifera</i>		common
Shortleaf Fig	<i>Ficus citrifolia</i>		one large specimen
Snowberry	<i>Chiococca alba</i>		common
Spanish Stopper	<i>Eugenia foetida</i>		common
Wild Dilly	<i>Manilkara bahamensis</i>	RI	uncommon
